DETAILED ACTION

Allowable Subject Matter

1. Claims 23-27 are allowed.
2. The following is an examiner's statement of reasons for allowance: in light of applicant's response to the detailed office action dated 7/27/2004, examiner agrees with applicant's argument that the prior art searched and cited (Shibata) failed to teach or fairly suggest a charged beam exposure method having steps of dividing layout data of a semiconductor apparatus into sizes smaller than basic figure apertures which take reduction in exposure into consideration and emitting a beam onto a sample, the beam being shaped into a form of an overlapped portion of the divided layouts and a part of the classified basic figure apertures in combination with the remaining elements of claim 23. Claims 24-27 are allowable because of their dependencies upon claim 23.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
